Dear Sir:

I have been referred to you by the Civil Aeronautics Board in my search for information concerning the crash of the Sabena Belgian World Airways B-707 at Brussels, February 15, 1961. In view of the fact that citizens of the United States, including members of the Olympic Skating Team, were killed in this accident, it was felt that you might have a report issued by the Belgian authorities.

I am doing some research on this particular accident and have not been able to find any accident reports other than the local newspaper accounts. Being a pilot, I am interested in a more detailed technical account of the cause of the accident than I have found.

Could you please forward to me any findings that you may have or indicate to me where I might find such a report. Thank you for your attention to this matter.

Very truly yours,

William B. Miles
